

FY 2018 CAPITAL PROGRAMS FACT SHEET

SEPTIC SYSTEM UPGRADE REBATE:

- **Funding Available:** Up to \$75 million
- **Eligible Projects:** The Environmental Facilities Corporation (EFC) shall work with counties to develop plans in order to provide a rebate of up to 50 percent of eligible costs, up to \$10,000, to incentivize the replacement of cesspools or septic systems with advanced systems which will significantly and quantifiably reduce environmental and/or public health impacts to ground and drinking water. Rebates shall be available for the replacement of a cesspool with a septic system, the installation, replacement or upgrade of a septic system (or septic system components), or installation of enhanced treatment technologies, including an advanced nitrogen removal system.
- **Eligible Applicants:** Each County shall be the local administrator of the rebate program. Counties shall determine eligibility of individual property owners based on location of property in relation to a waterbody, impacts to ground water used as drinking water, and the condition of the property owner's current septic system.
- **Application Process:** Under development by EFC. Program does not take effect until October 17, 2017.
- **Application Due:** July 28, 2017.
